# Will Gallop
## Web Developer

## Overview

I am a highly motivated developer with a specialty in front-end web development. I have a curiosity that pushes me to learn new technologies on the fly, while at the same time remaining vigilant on perfecting processes I have already grasped, such as HTML5, CSS3, and JavaScript.

My portfolio contains projects that I planned, designed, and assembled from the ground up as well as projects that required collaborations between designers, SEO specialists, and project managers. I enjoyed every minute of all of them, and I am always looking for new challenges.

Currently, I live in Charleston, South Carolina working as a Senior Web Developer for Benefitfocus, a leading benefits management software company.

## Skills

Front-end: HTML5, CSS3, SASS/LESS, JavaScript, jQuery, Angular

Back-end: PHP, SQL, MongoDB, Drupal, Wordpress, Jekyll

Design: Adobe Photoshop and Illustrator

Build tools: Git Version Control, NPM, Grunt/Gulp, Responsive Web Design, Command Line

Learning Currently: Java,

## Experience

### Benefitfocus

Senior Web Developer
March 2016 - PRESENT, Charleston, SC

Web Developer
February 2015 - March 2016, Charleston, SC

Benefitfocus is a leading benefits management software company based in Charleston, SC. As a Web Developer I collaborated with a designer and other developers to build the corporate website and a media portal for the many clients of Benefitfocus.

Technologies utilized: HTML5, CSS3, jQuery, PHP, Drupal, Git, and Grunt

### Cobble Hill / Freelance Web Developer
February 2015 - March 2016, Charleston, SC

Cobble Hill is a small team of creative minds that build beautiful websites for companies all over the USA. There I was contracted to build an ecommerce website for Kate McDonald Bridal, and to maintain other published sites.

Technologies utilized: HTML5, CSS3, jQuery, PHP, Wordpress, Woocommerce

### Rawle Murdy / Interactive Web Designer (PT)
February 2015 - March 2016, Charleston, SC

My responsibilities at this integrated ad agency included working on the company's wordpress site and developing responsive email templates tested with Litmus.

## Education

**The Iron Yard /** Front-End Certification

July 2014 - October 2014, Charleston, SC

A 12 week intensive full stack development program

**University of Mary Washington** / B.S. in Business Administration

August 2008 - December 2012, Fredericksburg, VA
